

Group#	Title Defense Presenter	Proponents	Proposed Concept	Technology
BSIT3A, 1	5th Presenter	Fuentebella, Kristine Marie	ARChive: Digital Preservation of Engineering Prototypes Using an AR-Based Mobile Viewing System	Augmented Reality
		Agdoro, Arian Jane	DELUBYO: An Augmented Reality Disaster Preparedness Training System	Augmented Reality
		Cea, Stephanie Jane		
		Dometta, Jeema	PISTII: A Multiplayer Mobile Game System for the Digital Preservation of Filipino Fiesta Games	Game Development
BSIT3A, 2	37th Presenter	Abellon, Rolando	Virtual CSI: A Virtual Reality Crime Scene Investigation Training Simulator with Deduction-Based Performance Assessment for Criminology Students of Partido State University Lagonoy Campus	Virtual Reality
		Bulaqueña, Roduf		
		Canizo, Ivan Dominic	ResilNet: A LoRa-Based Decentralized Mesh Communication System for Disaster-Resilient Emergency Response in San Jose, Camarines Sur	Mobile Application
		Frondozo, Jhon Mico	EcoQuest: Partido A 3D Game-Based Learning Application for Enhancing Biodiversity Awareness and Conservation Attitudes in Mt. Isarog	Game Development
BSIT3A, 3	8th Presenter	Mañago, Ashley Nicole	PRAXIZ: An AI-Powered Internship Monitoring and Performance Analytics Platform for Partido State University Main Campus	Web Application
		Boy, Sophia, Bianca	PRISM: A Web-Based Research Lifecycle Management and Descriptive Analytics Information System for Academic Monitoring	Web Application
		Eco, Alex Dawn		
		Vasquez, Elyssa Rose	DormMate: A Web-Based Student Dormitory Management and Resident Support Platform	Web Application
BSIT3A, 4	33rd Presenter	Arista, Kim	Bakal-Bote: A Web-Based Scrap and Recyclable Waste Marketplace for the Municipality of Goa	Web Application
		Bendicio, Jerome	GoaScholar: A Centralized Municipal Scholarship Management System for the Municipality of Goa	Web Application
		Buslig, John Alexis		
		Candelaria, John Lloyd	ParSUFind: A Web-based Lost and Found Item Recovery in Partido State University	Web Application
BSIT3A, 5	38th Presenter	Zape, Clint Harry	SmartRoad 3D: An Adaptive Educational Game with Learning Analytics for Teaching Pedestrian Road Safety Awareness Among Elementary School Students	Game Development
		Atole, Vincent Roland		
		Froa, Jaylon Kirby	QuakeRun: A 3D Earthquake Preparedness and Survival Simulation Game	Game Development
		Hernandez, Robi Luke		
BSIT3A, 6	24th Presenter	Buete, Dan Jehu	MarhaySalud: A Web-Based Health Information and Record Management System for Rural Health Center in Sagñay, Camarines Sur	Web Application
		Agpoon, Micaella Joy	iVisit: A Web-Based Tourist Destination Reservation Portal for LGU of Lagonoy, Camarines Sur	Web Application
		Bonon, Revica		
		Canicula, Jhon Vincent	TAHAN: Tenant and Accommodation Housing Administration Network – A Web-Based Boarding House and Apartment Rental Management System	Web Application
BSIT3A, 7	41st Presenter	Banks, Ricky	Cyber Awareness Quest: A 2D Game-Based Learning Application for Enhancing Cybersecurity Awareness of ParSU Goa Campus Students	Game Development
		Ante, Joshua	Stomach Sim : Development of a Godot 2D Interactive Simulation for teaching Stomach Microbiota	Game Development
		Tabuzo, William		
		Passiona , Mark Angelo	CO2-Sense: An IoT-Based Indoor Air Quality Monitoring System for Laboratory Environment	Other
BSIT3A, 8	22nd Presenter	Pioneo, Joseph	GeoGuardians: A 3D Educational Disaster Preparedness Game for Flood and Landslide Awareness	Game Development
		Godoy, Rosiel	Arduino-Based Alcohol Detection and Monitoring System for School Entrance Safety	System Development
		Pacao, Lysalyn		
		Amata, Victoria Zoe	EdukPath: Adaptive Learning Platform with AI-Powered Quiz Generation for SHS Students	Web Application
BSIT3A, 9	30th Presenter	Buenafe, Donna	ParSU e-Feedback: Development of an Integrated Student Complaint and Feedback Management System	Web Application
		Balinas, Jessa	Paborito Online: Design and Development of an Integrated Web-Based Ordering, Sales, and Inventory Management System for Paborito Bake Shop	System Development
		De Las Alas, Crizel	Bloom Sampaguita: A Web-Based Platform for Sampaguita Farming, Marketing, and Customer Engagement	Web Application
BSIT3A, 10	27th Presenter	Corono, Bhea	An AI-Powered Virtual Assistant for Student Inquiries at Partido State University: A Student-Handbook-Driven Design Approach	System Development
		Esquerria, Cylene		
		Lovete, John Rey	OrgFlow: A Web-Based Document Tracking and Workflow Management System for Student Organizations at Partido State University	System Development
		Brinco, Russell		
BSIT3A, 11	18th Presenter	Cordova, Lio Bhasil	PsyCheck: A Web-Based Mental Health Screening and Referral System for University Students Using Automated Risk Assessment	Web Application
		Lim, Brian Jose	CleanPath: A Smart Waste Management System for Optimizing Garbage Collection Routes	Mobile Application
		Cadiz, John Rien		
		Adayo, Kaicer	ParSU Who: A Faculty and Staff Information Management System for Partido State University	Game Development

BSIT3B, 1	7th Presenter	Monserate, Lon Adlehcir	COSTruct AR: Augmented Reality-Based Measurement and Cost Estimation System with Marketplace Features in Partido	Augmented Reality
		Nabus, Blesszy Joy	Smart Community Monitoring: Web Platform for Disaster Risk Reduction in San Rafael, Lagonoy	Web and Mobile Application
		Barranda, Shejay	Storm Preparedness Game Simulator: A Gamified Disaster Readiness Simulation in Partido Area	Game Development
BSIT3B, 2	45th Presenter	Cordova, Charls John	ARIA: Augmented Reality for Integrated Agriculture — A2D Game-Based Mobile Application for Crop Disease Identification and Interactive Treatment Simulation for Local Crops	Augmented Reality
		Picaso, Jose Greg	FloraScan AR: An Offline Augmented Reality Mobile Application for Identifying Selected Plant Species and Their Conservation Status in the Partido District, Bicol Region	Augmented Reality
		Salvo, Earl Francis Zamudio, Melchizedek	PARALUTO: An Interactive 2D Filipino Cooking Simulation Game for Enhancing Culinary Skills, Cultural Heritage Awareness, and Nutritional Literacy Among Junior and Senior High School Learners	Other
BSIT3B, 3	34th Presenter	Vale, Harold Hector	BantayApoy: Integrated Fire Reporting & Response Tracking system	Web and Mobile Application
		Pamor, Regine	ProxiGuard: Arduino-based Ultrasonic Distance Monitoring and Real-time Alert System	System Development
		Vipinoso, Jessica	LoreBound: A level-Based Hybrid 2D Educational Game On Bicolano Folklore	Game Development
		Oliver, Princess Irish		
BSIT3B, 4	26th Presenter	Piano, Karl Laurence	DISASTER: An Interactive Game-Based Simulation System for Multi-Hazard Disaster Preparedness Training	Game Development
		Ricarte, Emerson Jay	SAFE DRIVE VR: A Virtual Reality-Based Traffic Rules and Road Safety Training Simulation System	Virtual Reality
		Atendido, Mary Anne	ResqGo: A 2D Gamified Simulation Application for First Aid and Emergency Response Training	Game Development
		Cantor, Ma. Analyn		
BSIT3B, 5	11th Presenter	Opeda, Manolito	BlisSakolot: A Real-Time Web-Based Crime Reporting and Emergency Alert System for Rapid Police Response	Web Application
		Balacanao, Edwin Joshua	SwineFeed: An IoT Smart Feeding System with Inventory Monitoring and Decision Support Analytics	Other
		Perias, Crissel	Huli Ka: A 2D Cross-Platform Traffic Enforcer Simulation Game for Enhancing Driver Rule Awareness	Game Development
		Sabordo, Gladys		
BSIT3B, 6	1st Presenter	Ricarte, Dexter	EcoLens: A Mobile Application with 3D Model Visualization for Learning Local Plant and Insect Biodiversity Among Biology Students at Partido State University	Mobile Application
		Penafior, Jay Ann	IoT-Based Smart Irrigation System with Soil Moisture Monitoring and Web-Based Farm Management Dashboard	Web Application
		Pasturan, Rolan	ParSU ScholarHub: A Web-Based Digital Repository for Student Research, Thesis, and Capstone Abstracts of Partido State University Goa Campus	Web Application
		Perdon, Mary Joy		
BSIT3B, 7	6th Presenter	Moralida, Rizza C.	BallistiScan AR: An Augmented Reality Forensic Fired Cartridge Case Identification and Interactive 3D Ammunition Anatomy System	Augmented Reality
		Texon, Marianne L.	Trash Track: A Real-Time Municipal Waste Collection Mobile Application with GPS-Based Proximity Alerts	Mobile Application
		Tivera, Maria Mae B.	AgriPredict: An IoT-Based Soil Moisture Forecasting and Remote Water Pump Control Mobile System	System Development
		Belmonte, John Michael B.		
BSIT3B, 8	31st Presenter	Kumar, Jeet	DryGuard: An IoT-Based Smart Automated Clothesline System for Laundry Protection	System Development
		Palaypayon, Joan Mae	eLect: An E-Voting Website for Student Elections	Web Application
		Rosamiran, Janna Mae	Case Closed: A Digital Crime Scene Investigation Training Game for Criminology Students	Game Development
BSIT3B, 9	10th Presenter	Buendia, Marvin	LifeGuard: A Computer Vision and Arduino-Based Drowning Detection System with IoT Alarm Sensors for Swimming Pools	System Development
		Dominguez, Jezel	CrimeAlert: An Arduino-Based Night Vision Surveillance and Crime Detection System	System Development
		Oriana, Mary Rose	Geographic Information Systems-Based Intelligent Water Source Locator and Route Optimizer for the BFP	Web Application
		Sales, Rea Mae		
BSIT3B, 10	44th Presenter	Bruzo, Sheleecates Y.	CrimeCase VR: A Case-Based Virtual Reality Crime Investigation Learning System Using Documented Criminal Cases	Virtual Reality
		Enon, Jorge Ellise M.	Development of an Emergency SOS Alert and Real-Time Tracking System for Rapid Emergency Response	Web and Mobile Application
		Sales, Cynthia A.	ARMuseo: A Mobile Augmented Reality Museum Guide and Cultural Artifact Learning Platform	Augmented Reality
		Tejares, Mark James N.		
BSIT3B, 11	9th Presenter	Tenorio, Brian Al P.	RoadWise: An Augmented Reality-Based Traffic Sign Recognition and Gamified Learning System for Road Safety Awareness	Augmented Reality
		Pahuwayan, Jomel A.	FindIT: A Smart Lost and Found Management System for Partido State University	System Development
		Villareal, George A.	BantayBus: A Web-Based Real-Time Bus Tracking and Estimated	
		Saor, Christine Joy	Arrival Monitoring System for JC Liner in Goa, Camarines Sur	System Development

BSIT3C, 1	23rd Presenter	Mañago, Gene Vincent	AURORA: Academic Unified Review, Observation, Rating, and Assessment System for Paperless Capstone Defense Management at Partido State University	System Development
		Castillo, Carol Ann		
		Buenafe, Rona Mae		
		Encinas, Lara Mae		
BSIT3C, 2	14th Presenter	Pasa, John Carlo J.	EvaQuick: Contactless Evacuee Profiling and Resource Allocation System using QR Codes for Efficient Local Disaster Response for MDRMO San Jose	Mobile Application
		De Jesus, Simond James A.	AgriVision AR: AI-Powered Crop Diagnostics	Augmented Reality
		Marasigan, Aron James P.	Arduino-Based Flood Temetry System: Real-time Height and Flow direction Monitoring with Automated Local Alerts	Other
		Belza, Ressa		
BSIT3C, 3	47th Presenter	Boñaga, Angel Lito	SafeRoute GOA: An Integrated GIS-Based Emergency Incident Reporting, Geolocation Mapping, and Response Coordination System for the Municipality of Goa, Philippine National Police, and Bureau of Fire Protection	Web and Mobile Application
		Atole, Mikkie A.	FishFresh AI: Offline Mobile Application for Fish Freshness Estimation Using Artificial Intelligence and Computer Vision	Mobile Application
		Belo, Apolo V.	GOAHealth: An Integrated Healthcare Teleconsultation Management and Patient Referral System with GIS-Based Mapping for the Municipality of Goa, Camarines Sur	System Development
BSIT3C, 4	13th Presenter	Garcia, John Denver P.	TraceDrive: A Vehicle Accident Tracking and Records Management System	Web Application
		Bobis, Janine	AR SignLearn: An Augmented Reality Road Sign Learning Book	Augmented Reality
		Casasis, Ernesto Jr	CyberShield: A Cybersecurity Awareness Simulation Game	Game Development
		Abalos, Michelle B.		
BSIT3C, 5	43rd Presenter	Capagalan, Joshua	Fire Safety Compliance Tracker: Leveraging Automation in Regulatory Management to Reduce Risk in Goa, Camarines Sur	Web and Mobile Application
		De Vera, Christian	VIRTUFIRE: A Virtual Reality-Based Marksmanship and Tactical Firearms Simulator for Criminology Students in Partido State University (PSU)	Virtual Reality
		Egagamao, Julie Ann	AR-Based Interactive Tourism Information and Route Guidebase in Lagonoy Camarines Sur	Augmented Reality
		Espiritu, Marjem		
BSIT3C, 6	20th Presenter	Alarcon, Alyssa	Implementation of an RFID and Face Recognition Enabled Attendance Management System for Employees in Municipality of Goa.	Web Application System
		Cano, Monneth	Design and Development of a Web-Based Business Permit and Licensing Management System for LGU-Goa.	Web Application
		Tarroza, Joan	Smart Object Recognition and Voice Assisted Learning System for Kindergarten.	Mobile Application
		Bares, Leomer		
BSIT3C, 7	39th Presenter	Floriano, Allykies Troy	IGNIS: A Smart Fire Alert and Response Mobile Application	Mobile Application
		Bono, Maxin Joy	RightsWise: Human Rights Learning and Assessment System for Criminology Students	Web Application
		Prila, Marc Reoul	AR and VR-Based Firearm Parts Learning and Identification Application for Criminology Students	web Application
		Papa, Alley Mc Keiht		
BSIT3C, 8	50th Presenter	Beltran, Jules Alquin	CSI Learn: A Web-Based Crime Scene Investigation Training System for Criminology Students	Web Application
		Cano, Christian	VR-Based Firearm Familiarization and Assembly Training System Using Hand-Tracking Technology for Criminology Students	Virtual Reality
		Alvea, Christine	AR ExamNav: An Augmented Reality Campus Wayfinding System for Entrance Examinees	Augmented Reality
		Boholano, John Kenneth		
BSIT3C, 9	40th Presenter	Basella, John Michael	Student Mental Health and Counseling Support System: A Web-Based Platform for Improving Student Awareness and Accessibility to Guidance Office Services	Web Application
		Abay, Krisma Faye	GPS and LoRa-Based Fisherfolk Monitoring System for Registered	IoT (Internet of Things) + Mobile/Web Application
		Cano, John Carlo	HydrantMap: A Mobile Crowdsourcing Application for Real-Time Fire Hydrant	Mobile Application
		De La Mata, John Rey	Status Monitoring and Accessibility Mapping for the Bureau of Fire Protection.	
BSIT3C, 10	35th Presenter	Seguenza, Aljie R.	Fishermen of Barangay Tagas Boulevard	Arduino/ESP32
		Domdom, Benedick	2.CyberQuest: A 3D Cybersecurity Awareness and Training Game	Game Development
		Exequiel, Celedonio	3. SPORTSYNC: Sports Event Management System with Automated Scheduling and Real-Time Ranking Monitoring.	Web application
		Netuliano, Samuel		

BSIT3D, 1	4th Presenter	Pacay, Fe Jay	AgriMarket: A Web-Based Agricultural Market Demand and Supply Information System with Price and Demand Prediction for Farmers and Local Markets in the Partido Area	Web Application
		Sabenorio, Jonas	Geora: A Web-Based Interactive 3D Geological Learning Museum and Reference Library with Progression-Based Learning Paths and Comparative Specimen Analysis for Geology Students of Partido State University	Web Application
		San Juan, Razel	Cyber Investigator: A Simulation Game for Enhancing Cybersecurity Awareness and Cybercrime Detection Skills	Web Application
		Talaran, Danica	Cemora: A Web and Mobile-Based Grid-Structured Multi-Cemetery Mapping and Family Relationship Visualization System with Data Verification for Efficient Grave Location and Record Management	Web and Mobile Application
BSIT3D, 2	2nd Presenter	Delfino, Christian	TerraMotion: A QR Code - Based Augmented Reality Application for Visualizing Plate Tectonics and Momentum Concepts in Grade 10 Science	Augmented Reality
		Lodor, Christian Emmanuel	CareerBridge AI: An Intelligent Employment and Job Matching Platform with an AI-Powered Career Advisor	Web Application
		Remalla, Zaira	FractionLens: A 2D Interactive Learning Game in Godot for Grade 4 Fractions Aligned with the DepEd MATATAG Curriculum	Game Development
BSIT3D, 3	46th Presenter	Rojas, Jecel	A CNN-Based Eggplant Leaf Disease and Nutrient Deficiency Detection System with Treatment Recommendation for Farmers in the Municipality of Goa, Camarines Sur	Mobile Application
		Maravillo, Jhonalyn	AgriMarket: A Web-Based E-Commerce and Pricing Portal for Farmers in San Jose, Camarines Sur	Web Application
		Pre, Clide Jude	CareConnect: A Senior Citizen Assistance and Monitoring System	Web Application
BSIT3D, 4	19th Presenter	Asor, Joshua David	SmartStudy: An Intelligent Mobile Application for Smartphone Usage Monitoring and Academic Risk Detection	Mobile Application
		Vasquez, Kim	Thrill3D: A Web-Based 3D Product Visualization System for Thrifted Garments	Web and Mobile Application
		Purcil, McRiezl	Development of a QR Code-Based Evacuee Monitoring Mobile Application for San Jose, Partido, Camarines Sur	Web and Mobile Application
		Villanueva, Laurence	GenRx: Online Medicine Ordering and QR Pickup System	Web and Mobile Application
BSIT3D, 5	32nd Presenter	Paga, Emil	ARFind: Augmented Reality-Based Office Finder with Multiple Route Navigation for Partido State University	Augmented Reality
		Panagan, Leslie	AlaGov: NLP-Powered Local Government Services Chatbot and Information System	Web and Mobile Application
		Cordez, Sheena	An Online Apartment and Boarding House Managment System in Goa Camarines Sur	Web Application
BSIT3D, 6	49th Presenter	Lagatic, Christopher	Furnitra: A Web-Based Ordering and Marketplace System for Local Furniture Shops in Partido, Camarines Sur	Web Application
		Lazaro, Christine	PalayLink: A Mobile-Based Direct Marketing and Buyer Verification System for Rice Farmers in Tigaon, Camarines Sur	Mobile Application
		Tapia, Aeron Jay	Design and Implementation of an E-Grocery Platform for Local Store Businesses	Web Application
BSIT3D, 7	29th Presenter	Millesca, Jodelyn B.	Design and Implementation of an On-Demand Habal-Habal Booking and Management System for Local Transportation Services in Lagonoy, Camarines Sur	Mobile Application
		Tilar, Benjie	Development of a Mobile-Based Centralized Immunization Tracking and Vaccination Reminder System for Barangay Health Centers in the Municipality of Lagonoy, Camarines Sur	Mobile Application
		Prado, Jeof	TrabahoLink: A Web Based Skilled Worker Matching and Service Request Platform for Blue Collar Workers in Partido, Camarines Sur	Web Application
BSIT3D, 8	15th Presenter	Prestosa, Janine	Safety Quest: A Mobile-Based Multi-Hazard Disaster Preparedness Game with Adaptive Learning Assessment to Improve Emergency Response Awareness among Students	Game Development
		Villaralbo, Julius	KALASAG: A web-based climate resilience certification system for rural infrastructure in Partido, camarines sur	Web Application
		Magnosay, Trisha C.	MOVAL: A Mobile-Based 3D Virtual Automotive Laboratory Using Photogrammetry for Automotive Technology Students	Mobile Application
BSIT3D, 9	21st Presenter	Lodor, Princess B.	Bantay-Kagat: A Web-Based Pet Registration, Vaccination Logging, and Community-Driven Stray Surveillance System	Web Application
		San Esteban, Pia	PARTIDO WORD-CATCH: Mother Tongue-Based Language Game A 2D Mobile Puzzle Game for Bikol-Partido Language Preservation	Game Development
		Peñero, Ken Joseph	OOPs: Gamified Learning of Object-Oriented Programming Through an Educational Game Web-Application for ParSU's BSIT 2nd-Year Students	Web Application
BSIT3D, 10	36th Presenter	Israel, Darwin	QTrack: A Web and Mobile-Based Queuing Tracking System for Efficient Service Management	Web and Mobile Application
		Marasigan, Julie	E-Ticket: Development of an Automated Traffic Violation Ticketing System with Payment and Digital Receipt Generation for the Municipality of Goa, Camarines Sur	System Development
		Polillo, Meljun	EcoShield AI: An IoT-Enabled Flood Monitoring and Early Warning System with AI-Assisted Disaster Preparedness	Web Application
BSIT3D, 11	16th Presenter	Paronda, Mark	ReadWise: AGamifiedAppfor SeniorHighReadingComprehension	Mobile Application
		Postrado, Arjay	EcoCollect AI: Development of an AI-Powered Smart Waste Collection and Monitoring System for Municipal Waste Management	Web Application
		Peley, Cienna Angela	CellAR: An Augmented Reality-Based Interactive Learning System for Visualizing Cellular Structures Using 3D Models	Augmented Reality
BSIT3D, 12	25th Presenter	Ilagan, Paulene Cris	FloodVisionAR: An Augmented Reality Flood Visualization and Preparedness System for Community Disaster Awareness	Augmented Reality
		Gonzaga, John Clark	KolektaKita: A Web Based Recycling Marketplace Connecting Households and Junk Shop Owners for Sustainable Waste Management	Web Application
		Ploneo, Pauline Joy	ComprehendIQ: A Gamified Adaptive Web Application for Reading Comprehension Diagnosis through Behavior Analytics, Fluency Tracking, and Cognitive Profiling for High School Students of Goa, Pinaglabanan National High School	Web Application
BSIT3D, 13	12th Presenter	Santamaria, Mae Francine	DengueSense: A Machine Learning and GIS-Based Early Warning System for Dengue Outbreak Prediction and Community Risk Mapping in Goa, Camarines Sur	Web Application
		Enciso, Anola	Real-Time Rice Leaf Disease Detection and Severity Estimation	Mobile Application

BSIT3E, 1	52nd Presenter	Arayon, Francis Jerome	An Arduino-Based Water Level and Temperature Monitoring System with Simple AI Chatbot for Aquaculture Farmers in Barangay San Sebastian	Web and Mobile Application
		Barbosa, Anthea Mae	Design and Development of a Web-based System with 3D Visualization for Showcasing Local Products in Lagonoy, Camarines Sur	Web Application
		Zambrano, Ivan	Design and Development of a Smart Bus Occupancy and Arrival Monitoring System	Web Application
		Faurillo, Rian	Mobile App for local fish Vending	Mobile Application
BSIT3E, 2	48th Presenter	Molina, Samson	Mobile-Based Church Financial Record Management System for Lahing Pinagpala Nation Church	Mobile Application
		Nilullano, Aljon		
		Rivero, John Lawrence	AR-Hardware: An Augmented Reality-Based Computer Parts Learning System with AI-Integrated Tutoring	Mobile Application
BSIT3E, 3	42nd Presenter	Bacares, Romel Jr.	Smart Farm: An IoT-Based Monitoring and Notification System for Hydroponic Farming	Mobile Application
		Cabahug, Arjae	AI-Driven Cloud-Based Inventory System for Poultry Farmers of San Jose	System Development
		Obado, Ralph Joshua	Development of a Gamified Mobile-Based Learning Platform for Mathematics and English Review Among Grade 6 Pupils Preparing for Junior High School	Web and Mobile Application
BSIT3E, 4	51st Presenter	Sarto, Sean Henjie	An AI-Supported Software-Based Oral Reading Assessment Application for Classifying the Reading Levels of Junior and Senior High School Students at Calabanga National Science High School	System Development
		Arroyo, Juliane Christine	Mobile-Based E-Commerce Platform for Small & Medium Enterprises (SME's): An Integrated System for Online Ordering Inventory Management and Sales Analytics	Mobile Application
		Banzuela, Emilyn	Web-Based Community Disaster Resource Management Information System	Web Application
		Rodriguez, Chelsea		
BSIT3E, 5	28th Presenter	Calinog, Edgar IV	Design and Development of a Web-Based Appointment Scheduling and Medical Records Request System for the University Clinic of Partido State University	Web Application
		Gonzaga, Melody		
		Rivero, Irvin	Development of Web-Based Self-Service Visitor Registration and Monitoring Kiosk System systems for improved campus Security And Visitor Record Management	Web Application
		Dela Cruz, Ellen		
BSIT3E, 6	3rd Presenter	Milanay, Mark Anthony	SeedTrace: A Web-Based Rice Seed Origin and Traceability System	Web Application
		Geopano, Cristian	Web and Mobile-Based Clinic Appointment and Patient Management System	Web Application
		Magcalayo, Mark Charlie	Web-Based Online Community Blotter and Incident Reporting System	Web Application
		Dizon, Kenneth Paul		
BSIT3E, 7	17th Presenter	Pahoyo, John Kendric P.	Annotation and Revision Tracking Web-Based Thesis Defense Management System	Web Application
		Pempeña, Nick G.	Disaster Incident Mapping System and Hazard-Prone Area Monitoring with GIS Visualization	Web Application
		Vipinoso, Rica Rose R.	IoT-Based Flood Detection Real-Time Monitoring & SMS Response	Web Application
